

Review Form 3

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_121481
Title of the Manuscript:	Occurrence and Antibiotic Resistance profiles of Metallo-beta-lactamase-producing Pseudomonas aeruginosa among clinical isolates in Enugu Metropolis
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	LIKE- Metallo-beta-lactamase-producing <i>Pseudomonas aeruginosa</i> among clinical isolates is a raising concern in most part of the world. Detection of MBL is relevant any clinical setting so that effective treatment and antibiotic policy can be started.	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Need Clarificaatio regarding duration of study. The work was conducted from October 2020 to July 2021 in the microbiology laboratory of the University of Nigeria Teaching Hospital, Ituku-Ozalla. Two different duration mentioned. This study was carried out from November 2021 to August 2021 at the University of Nigeria Teaching Hospital in Enugu, Nigeria	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Manuscript discussed impornance of MBL in Pseudomonas and method of detection and AST pattern. Discussed regarding sample wise distribution.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Appropriate	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	 The language/English quality of the article suitable for scholarly communications –yes , needed some grammatical check.	
Optional/General comments	Need Clarificaatio regarding duration of study. The work was conducted from October 2020 to July 2021 in the microbiology laboratory of the University of Nigeria Teaching Hospital, Ituku-Ozalla. Two different duration mentioned. This study was carried out from November 2021 to August 2021 at the University of Nigeria Teaching Hospital in Enugu, Nigeria
