PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Writing a manuscript on dengue could be a valuable contribution to the scientific community as it is a significant public health concern. My dislike for this manuscript is because there is no flow of write up. The paragraphs seem disjointed. Unnecessary repetitions have been noted at multiple places.	
Is the title of the article suitable? (If not please suggest an alternative title)	No, the title is not suitable. It should be " Severe thrombocytopenia associated with dengue fever and its management using platelet concentrates "	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No, it should contain atleast few lines on Dengue virus introduction and illness caused by it.	
Are subsections and structure of the manuscript appropriate?	No, it lacks a logical and consistent format, making it hard to understand and follow authors reasoning.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Title needs correction, " platelet concentrates" are used in dengue patients management with thrombocytopenia. Concentrators are the machines producing platelet concentrates. manuscript purpose is not clearly stated. The author has mentioned several different kinds of purposes through out the manuscript. Intro is inadequate.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Number is sufficient	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Inappropriate for scholarly communication	
Optional/General comments
