

**Review Form 3**

Journal Name:	<b>South Asian Journal of Parasitology</b>
Manuscript Number:	<b>Ms_SAJP_121390</b>
Title of the Manuscript:	<b>Orbital Soft Tissue Granuloma Caused by Dirofilarial couple: A rare clinical case report</b>
Type of the Article	<b>CASE REPORT</b>

### Review Form 3

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> ( <i>Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i> )
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -

**Review Form 3**

	Line No	Discussion	Comments		
			<ol style="list-style-type: none"> <li>1. What is the mechanism by which <i>Dirofilaria</i> cause granuloma formation?</li> <li>2. What is the limitation of the diagnosis or in the case study reported here?</li> <li>3. Future direction? Any recommendations or suggestion for clinical practice?</li> </ol>		
	Line No	Conclusion	Comments		
			This section can be simplified by stating the summary of the key points of the case report, reiterating its rarity and the importance of awareness among clinicians.		
	Line No	References			
			Ref ok		
	General Comments	The author should abide by the journal requirement.			

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
