

Review Form 3

Journal Name:	International Journal of Advances in Nephrology Research
Manuscript Number:	Ms_IJANR_121039
Title of the Manuscript:	ARTIFICIAL INTELLIGENCE IN NEPHROLOGY- ITS APPLICATIONS FROM BENCH TO BEDSIDE
Type of the Article	Minireview Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<ul style="list-style-type: none"> The manuscript cites a wide range of relevant studies, which strengthens its arguments. The references are comprehensive and relevant, covering a wide range of studies and reviews pertinent to the topic. 	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>yes</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<ul style="list-style-type: none"> The abstract provides a sufficient overview of AI's potential in nephrology, emphasizing its role in enhancing diagnosis, treatment protocols, and clinical efficacy. However, the abstract could be improved by briefly mentioning specific applications and outcomes discussed in the manuscript. 	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>yes</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<ul style="list-style-type: none"> The inclusion of tables summarizing key studies enhances clarity and credibility. Moreover, the manuscript critically evaluates the strengths and limitations of AI technologies in nephrology, demonstrating a balanced and well-informed perspective. 	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Incorporating more recent references, particularly studies published within the last two to three years, could enhance the review's currency and relevance.</p>	
<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<ul style="list-style-type: none"> The first line content of the abstract mirrors with the 4th line content of the introduction. From Figure 1 and Figure 2, delete the @symbol from the bottom part Use citation in Table 3, Type of Diagnosis B and C 	
<p>Optional/General comments</p>	<p>Expand the discussion on future research directions and potential challenges in implementing AI in nephrology.</p>	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
