

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_121642
Title of the Manuscript:	Effect of Cold plasma treatment on seed quality parameters under cold stress in rice (<i>Oryza sativa</i> L.)
Type of the Article	Research paper

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This paper has given the new seed treatments using cold plasma. It will be useful to seed fortification techniques in rice production. Then It will be able to improve rice yield during cold stress	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, It is	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, It is good.	
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Nothing	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No,	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes, it is suitable	
Optional/General comments	This paper has to review the material and methods and results. Because Materials and method had mentioned using 10 and 20 voltage treatments but the abstract, results and table had given 20 and 30 voltage treatments. If it is possible the author can support few biochemical parameters to make clear results because all parameters in paper are physiology observations. Material and method have to mention how to make cold plasma treatments with equipment used	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
