

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_120739
Title of the Manuscript:	Pharmacological studies of <i>Gymnema sylvestre</i> leaves extract
Type of the Article	Research article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The study on the pharmacological properties of <i>Gymnema sylvestre</i> leaves extract is significant due to its potential therapeutic applications in antibacterial and anti-inflammatory treatments. The findings support the traditional use of this plant in medicine and highlight its bioactive compounds	
Is the title of the article suitable? (If not please suggest an alternative title)	Suggestion: Phytochemical screening and pharmacological properties of <i>Gymnema sylvestre</i> leaves extract	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract should be improved accordingly. The authors should include values of the relevant findings of the bioassays.	
Are subsections and structure of the manuscript appropriate?	Need to be improved	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The investigation of the chemical composition, antibacterial, and anti-inflammatory properties in the <i>Gymnema sylvestre</i> leaves extract, the study reveals numerous noteworthy strengths and substantial contributions to the field of pharmacology.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. =	The references are not up to date. Therefore, need to be updated accordingly.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	No. Proofreading of the paper is highly recommended	
Optional/General comments	The study on the pharmacological properties of <i>Gymnema sylvestre</i> leaves extract is significant due to its potential therapeutic applications in antibacterial and anti-inflammatory treatments. The findings support the traditional use of this plant in medicine and highlight its bioactive compounds. However, the paper requires improvements in methodology detail, data presentation, and overall formatting to enhance its scientific accuracy and readability. The study has the potential to make a more substantive contribution to the field and establish a solid foundation for future research by addressing the identified weaknesses.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> No
