

Review Form 1.7

Journal Name:	Asian Journal of Orthopaedic Research
Manuscript Number:	Ms_AJORR_119657
Title of the Manuscript:	Femur length as a predictor of femur head diameter in Nigerians
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Author can compare the study results with similar studies conducted in different population with different race. So that the applicability of findings to universal population can be examined. In title " Predictor" word can be used</p> <p>In abstract any known confounding factor for variations in results can be mentioned.</p> <p>Yes</p> <p>Sample size could have been large and results could have been shown different for age and sex.</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language is good.</p>	
<p>Optional/General comments</p>	<p>In the graph results are showing multiple dips. Therefore linear correlation seems questionable.</p>	

PART 2:
