Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This gives a lesson to use retrospective data as a valuable tool to look forward The data generated could be used for education as well as taking some actions..	
Is the title of the article suitable? (If not please suggest an alternative title)	I think no.. The word epidemiology and risk needs to be changed. Incidence of Animal bites and prophylactic measures in ----- from----	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	It is ok.. There is word connections and needs language editions..	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	Since retrospective data are a source of epidemiological data, its contribution could be undermined. I think the required data were generated.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Yes	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	Needs revision, grammar, utilization of Coma and Semicolos etc. Spacing and alignment is a big issue.	
Optional/General comments	Points to be checked -The title -Language issues -Table labelling and the Figure clarity -Reference issues -Discussion -Conclusion and recommendation
