

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<b>Archives of Current Research International</b>
Manuscript Number:	<b>Ms_ACRI_126168</b>
Title of the Manuscript:	<b>The Influence of Sociodemographic Factors on Anti-Social Behavior among Children: A Case of Bobaracho Area, Nyaribari Chache, Kenya</b>
Type of Article :	<b>Descriptive qualitative and quantitative study</b>

**PART 2:**

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>I would like to express my appreciation for the opportunity to review the revised paper. The authors have made commendable efforts in their work. To assist in further improving the manuscript, I have provided succinct comments for the evaluation form, as well as detailed notes attached for deeper insights.</p> <p><b>Objectives:</b> It is recommended that the primary research question be articulated clearly and concisely to enhance the clarity of the study's intent.</p> <p><b>Methodology:</b></p> <ul style="list-style-type: none"> <li>• <b>Sampling:</b> A more detailed description of the sampling procedure is necessary, including specifics on sample size, selection criteria, and response rate.</li> <li>• <b>Data Collection:</b> It would be beneficial to clearly outline the instruments utilized for data collection, accompanied by information on their reliability and validity.</li> <li>• <b>Data Analysis:</b> Please specify the statistical techniques employed in the analysis and provide justification for their appropriateness in addressing the research questions.</li> </ul> <p><b>Results:</b></p> <ul style="list-style-type: none"> <li>• It is advised to focus on key quantitative findings or statistics that directly respond to the research question, rather than solely presenting themes.</li> <li>• The inclusion of visual aids, such as tables or figures, could significantly enhance the clarity and accessibility of the complex data presented.</li> <li>• Contextualizing the findings, interpreting their significance in relation to the research question—would strengthen the discussion.</li> </ul> <p><b>Discussion:</b> Consider adding a separate section dedicated to discussion, which would allow for a more thorough analysis of the findings and their implications.</p> <p><b>Conclusions:</b></p> <ul style="list-style-type: none"> <li>• When drawing conclusions, aim to synthesize the findings rather than merely summarizing them. Connecting the results to the broader literature and theoretical framework would provide greater depth.</li> <li>• Highlighting the unique contributions of the study and its implications for future research or practice would also be valuable.</li> <li>• Acknowledging any limitations of the study and their potential impact on the interpretation of the findings will provide a balanced perspective.</li> </ul> <p><b>Recommendations:</b></p> <ul style="list-style-type: none"> <li>• It would be beneficial to consolidate and streamline overlapping recommendations into a cohesive set of actionable strategies.</li> <li>• Replace vague suggestions with specific and actionable steps, including concrete examples to aid implementation.</li> <li>• Addressing potential challenges in implementing the recommendations and suggesting alternative approaches or emphasizing collaboration would enhance the practical applicability of the suggestions.</li> </ul>
