

Review Form 3

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_126862
Title of the Manuscript:	Maternal and Foetal Outcomes in Full-Term Pregnancies with Abnormal Amniotic Fluid Index
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>The article does not throw light on the extremes of abnormal AFI used. Whether trial of labour was given in a woman with AFI less than 4cm is not mentioned. Polyhydramnios also has a severe variety of AFI >40cm. Such inclusions whether made or not can be clarified. The article overall is well written with good command of English. The abstract is precise and to the point.</p> <p>It can be useful in predicting the mode of delivery by which minimum stress can be incurred upon the baby in utero.</p> <p>Abnormal AFI findings are very common amongst term women. It can help formulate a protocol</p>	
<p>Is the title of the article suitable? Yes (If not please suggest an alternative title)</p>	<p><u>Abnormal AFI and its implications on fetomaternal outcome</u></p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p><u>The abstract is precise. It highlights the essential points in the article. The doubts arising in the abstract are resolved on reading the full article.</u></p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p><u>Yes, appropriate</u></p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p><u>Abnormal AFI can be a predictor of fetal wellbeing in the antenatal period. Depending upon the AFI, mode of delivery is planned.</u></p> <p><u>Severe oligohydramnios and polyhydramnios are not subject to trial of labour as they may result in fetal distress and cord prolapse, respectively.</u></p> <p><u>This article highlights the importance of measuring AFI and the impact of abnormal AFI in a pregnant woman. It also touches upon the associated problems with abnormal AFI.</u></p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p> <p>Sufficient -</p>		
<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>English language used in the article is good and stored for scholarly communication.</p>	
<p>Optional/General comments</p>	<p>Nil</p>	

Review Form 3
