

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_126557
Title of the Manuscript:	Yield performance of Pangasius sutchi with carps under composite fish culture in farm ponds of Dakshina Kannada, Karnataka
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Farm ponds play a crucial role by storing water for the various agriculture and horticulture farming practices. With intervention of scientific management practices, the same farm ponds can be effectively used for fish culture as well with different beneficial approach	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The dual use of water, as is the case in this research, is of great importance for the integration of plant and animal production, optimal utilization of water, and increasing productivity per unit area. This method of breeding also contributes to providing the necessary fertilizer for the plant and protecting the aquatic environment from chemical pollution	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
<u>Optional/General</u> comments	The dual use of water, as is the case in this research, is of great importance for the integration of plant and animal production, optimal utilization of water, and increasing productivity per unit area. This method of breeding also contributes to providing the necessary fertilizer for the plant and protecting the aquatic environment from chemical pollution
