Review Form 3

PART 1: Review Comments

| Compulsory REVISION comments | Reviewer's comment | Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part. | It's a good topic related to veterinary sciences. Still, there is a lack of scientific information about the mechanism of omega fatty acids in Canine Dermatological Disorders, and recent literature did not convey the proper information about the topic. | |
| Is the title of the article suitable? (If not please suggest an alternative title) | Yes title is related to the manuscript | |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here. | Revise the abstract by adding more phrases of scientific information on proper dietary management and the measurable impact on canine dermatological health, which could enhance clarity. | |
| Are subsections and structure of the manuscript appropriate? | <ul style="list-style-type: none"> ➤ Add a section that includes the mechanism of Omega fatty acids in dermatological disorder ➤ Add a paragraph at the end of the introduction that should mention the objective of your study. ➤ Add a methodology section that supports scientific literature and details of the literature survey. | |
| Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part. | <ul style="list-style-type: none"> ➤ Check the flow of the scientific information throughout the manuscript. ➤ Add a table that provides information on the required amount and doses of omega fatty acids in the dermatological disorder. ➤ Draw a diagram related to the mechanism of fatty acids in dermatological disorders. ➤ Improve the manuscript by citing recent related work. | |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. | Cite some more references from recent literature | |
| Minor REVISION comments | Improve the English language of the manuscript from native speaker. | |
| Is the language/English quality of the article suitable for scholarly communications? | | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|--|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
