

**Review Form 3**

Journal Name:	<a href="#">Journal of Advances in Medical and Pharmaceutical Sciences</a>
Manuscript Number:	Ms_JAMPS_127003
Title of the Manuscript:	Exploring Latest Technologies: Current Position & Challenges in the Domain of Medicine, A Narrative Review
Type of the Article	Minireview Article

## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript allows the readers to understand the current state of the many different field in medicine including, blockchain technology, quantum physics, and much more. It emphasizes the importance of each field and the certain challenges it is currently facing. I like this manuscript because it is concise and straightforward, the message and layout is well written.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b> <b>The title is suitable for the article</b>	Yes, the title is suitable for this article.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is clear and well structured, outlining the significance of emerging technologies in medicine. It highlights a range of innovations, from nanotechnology to quantum mechanics, showing how technological advancements impact healthcare. The discussion of both the benefits and challenges of these technologies demonstrates a balanced approach to the subject. Overall, the abstract sets a solid foundation for the article.	
<b>Are subsections and structure of the manuscript appropriate?</b>	Yes, the subsections and structure of the manuscript are appropriate. The manuscript is well-organized, with clear sections that introduce the technologies, discuss their applications in healthcare, and highlight their drawbacks. The main sections are divided into subsections that make it easier to navigate the information. Each section is structured in a logical order, starting with an introduction to technology, followed by its applications, and ending with a discussion of its limitations.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is scientifically robust and technically sound, as it is based on credible, peer-reviewed sources and current research. It balances the advantages and limitations of each technology, ensuring a well-rounded and evidence-based discussion. The manuscript also includes established scientific principles with emerging technologies, demonstrating understanding of their applications in healthcare.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The references are generally sufficient and up to date, covering essential technologies and their applications.	
<b>Minor</b> REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes, the language and English quality of the article written is suitable for scholarly communications.	
<b>Optional/General</b> comments		

### PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
