

Review Form 3

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_127003
Title of the Manuscript:	Exploring Latest Technologies: Current Position & Challenges in the Domain of Medicine, A Narrative Review
Type of the Article	Minireview Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is well written and addresses the contemporary systems and innovative integrations. However if it could be focused to the application of these techniques in any specific medical domain (eg Pathology, Radiology etc) then it would be more conclusive. However, inclusion of more innervations eg Internet of Medical Things etc would yield more in nature of writing.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes the title is the best in its formation. However, I could be modified as "Dimensions of technological Innervation: Contemporary position and challenges in domain of Medicine: A Systemic Review"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes the abstract is well presented and sufficiently well regarded.	
Are subsections and structure of the manuscript appropriate?	Yes the manuscript structure is appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is correct scientifically but the issue is that only effects and limitations are discussed well enough. These methods need to be studied related to single division of medical sciences. They have their specific limitations in each and every field of medicine. Furthermore, addition of other techniques eg IoMT etc will also add to quality of manuscript However, Overall manuscript is well presened and well written.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, the references are sufficient and recent please.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	No, the Language Quality needs to be adjusted please. Its showing 88% score on Grammarly with 125 suggestion of corrections.	
Optional/General comments
