Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is interesting when analyzing the prevalence of viruses in an agricultural crop of great importance worldwide.	
Is the title of the article suitable? (If not please suggest an alternative title)	error in the scientific name of the tomato, "and their host range" should be linked to the name of the diseases and not to the country,	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	the writing in English should be improved, the study is interesting but it should be rewritten and rethought more objectively since it is a little confusing when talking about tomatoes and mixing them with alternative plants,	
Are subsections and structure of the manuscript appropriate?	"In 2022, 186 tons of tomatoes were produced worldwide [1]." This information is incorrect. Information on alternative host plants to viruses should be included.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	the writing in English should be improved, the study is interesting but it should be rewritten and rethought more objectively since it is a little confusing when talking about tomatoes and mixing them with alternative plants,	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	It is recommended to consult a reviewer, proofreader of the English language with experience in scientific articles.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
