Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This article discusses the basic concepts of concrete shrinkage, including plastic shrinkage, thermal shrinkage, carbonation shrinkage, drying shrinkage, and autogenous shrinkage. It discusses the consequences of these types of shrinkage. This manuscript could make its contribution to the field of civil engineering. I positively appreciate the author's approach.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is not comprehensive. I suggest some additions. Especially to present us the final values retained in the body of the article. In addition, the abstract is too short.	
Are subsections and structure of the manuscript appropriate?	Subsections and structure of the manuscript are appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The references are good. The scientific approach has been well respected by the author of this manuscript. Given the results of the retractions and the consequences analyzed by these retractions, I can say that technically the work is correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent.
