PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is relevant and has potential, but a few areas could be strengthened to make it more academic. I want to offer some constructive suggestions that might help improve the overall quality of the paper.	
Is the title of the article suitable? (If not please suggest an alternative title)	The research title should be aligned with the Research Objective, and therefore, I suggest considering revising the Research Title into -- Challenges in Implementing Extracurricular Activities and Their Impact on Skill Development in Secondary Schools: A Case Study of Morogoro Municipality, Tanzania	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Please see my comments in a separate file.	
Are subsections and structure of the manuscript appropriate?	Yes, it is appropriate. But I suggest to include – Study Limitation (after recommendations).	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript demonstrates scientific robustness (once the suggestions are incorporated in the manuscript) through its clear methodology, well-defined research objectives, and the use of appropriate data collection techniques. The authors have grounded their study in relevant literature aligned with the research objectives.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Having 18 references in APA format is acceptable, but since I've suggested adding references in some parts of the manuscript, the number may still increase.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	I recommend running the manuscript through a plagiarism check and an AI detection tool to ensure its originality and authenticity.	
Optional/General comments	Please consider the constructive suggestions, though you are not obligated to follow them all.
