

**Review Form 3**

Journal Name:	<a href="#">Asian Journal of Education and Social Studies</a>
Manuscript Number:	Ms_AJESS_126799
Title of the Manuscript:	<b>A Survey and Analysis of Implementation Status of Science and Technology Mini Projects Course in Middle School</b>
Type of the Article	<b>Original Research Article</b>

**Review Form 3**

**PART 1: Review Comments**

<b><u>Compulsory</u></b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript presented the result of the investigation on the use of science and technology mini projects to middle school students. At present, educators are interested in improving the teaching of science and technology to students through various types of strategies, hence, this manuscript could give ideas to other educators who are also interested in improving science education. Further, this manuscript guides and gives science educators ideas on different ways of teaching science.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive, however, I would suggest that the researcher include the research design used for this study.	
Are subsections and structure of the manuscript appropriate?	It was observed in the manuscript that sections are all present. However, if they follow a format such as IMRAD they need to use proper headings. This may guide the readers while reading the study. I suggest that the author add a clear description of the science and technology mini projects such as the structure, objectives, content, etc. This may help the readers to visualize and have a clear idea of what this project is. It is better to describe the Method what statistical method and how they analyse the data. Make the figure title concise and easy to understand. Also, it is helpful for the readers if there is an explanation/interpretation for every figure and not presented in a single presentation. I could help the readers to better understand what is presented in each table.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript presented the essential parts of a research article however they need to label the parts accordingly. It provides a clear purpose why conducting this research study. Research methods are presented but need to include how data were analyzed. The results were presented well and suggested ways that could help educators in teaching science using the Science and Technology Mini Projects Course.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	I observed that the references are sufficient and recent.	
<u>Minor</u> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Yes, but minor grammar checking.	
<u>Optional/General</u> comments		

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
