EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>I have attached the corrected paper for reference.</p> <p>1. Needs grammatical corrections in the Title of the article and the entire paper. I have only highlighted a few of them.</p> <p>2. Biopsy is mandatory. Avoiding doing a biopsy is not correct scientifically. Confirmation of the Diagnosis is very essential.</p> <p>3. Medical management is also to be included.</p> <p>4. "Review of the article" should include more inclusion of articles.</p> <p>5. References should include the latest references, as I have mentioned in the article.</p> <p>PLEASE REFER: 1. Indian J Otolaryngol Head Neck Surg . 2022 Jan 10;74(Suppl 3):4350–4355. doi: 10.1007/s12070-021-03009-6 Fibrous Dysplasia of Temporal Bone Safeer Mohammed^{1,✉}, Seung Hyun Jang², In Seok Moon²</p> <ul style="list-style-type: none"> • Author information • Article notes • Copyright and License information <p>PMCID: PMC9895677 PMID: 36742801 https://pmc.ncbi.nlm.nih.gov/articles/PMC9895677/</p> <p>2. Open access Case report First published online May 22, 2020 Management of the Temporal Bone Fibrous Dysplasia With External Auditory Canal Stenosis and Secondary Cholesteatoma in an Asian Population: A 11-Case Series Kun Zhang, PhD https://orcid.org/0000-0002-5280-4479, Peng Qu, PhD, [...], and Bing Chen, PhD bingchen@fudan.edu.cn+2View all authors and affiliations Volume 100, Issue 10 https://doi.org/10.1177/0145561320927922</p>	<p>Done</p> <p>A biopsy is only avoidable if clinical findings and imaging confirm that the stenosis is non-suspicious. Otherwise, it should not be avoided.</p> <p>Ok</p> <p>Ok</p> <p>Ok</p>
