Title of the Manuscript:	<b>Complex Interplay of Cardiac, Hepatic, and Renal dysfunction in a patient with Extra-Hepatic Portal Vein Obstruction and Rheumatic Mitral Stenosis: A Case Report</b>
Type of the Article	<b>Case report</b>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>This case report provides valuable insights into the complex interaction between cardiac, hepatic, and renal dysfunction in patients with rare comorbidities such as extra-hepatic portal vein obstruction (EHPVO) and rheumatic mitral stenosis. This case report illustrates how multi-organ involvement can complicate diagnosis and management in these patients, highlighting the need for multidisciplinary approaches. This report is crucial because it documents a rare clinical scenario and explains the pathophysiological links between the heart, liver, and kidneys, which are often interdependent. I appreciate the manuscript's comprehensive description, which could guide clinicians in managing similarly complex cases in clinical settings.</p>	
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>	<p>Yes, the title is appropriate.</p>	
<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>Here are a few suggestions related to the abstract. Including the patient's clinical outcome could provide closure and emphasize the practical impact of the management approach. Mentioning specific diagnostic tools (e.g., echocardiography, imaging for portal vein thrombosis) could enhance understanding of how the diagnoses were established.</p>	
<p><b>Are subsections and structure of the manuscript appropriate?</b></p>	<p><b>Yes. The structure and sub-sections are appropriate</b></p>	
<p><b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>This case report demonstrates scientific rigor through its comprehensive and systematic analysis of a rare and complex case involving cardiac, hepatic, and renal dysfunction. The authors meticulously document the patient's clinical history, diagnostic workup, and management approach, providing clear and well-supported interpretations of each step. The manuscript's strength lies in its logical discussion of pathophysiological mechanisms, that are grounded in current literature and relevant clinical guidelines. Overall, the level of detail and the structured presentation of evidence make this work both scientifically robust and technically sound, providing a credible contribution to clinical knowledge.</p>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p><b>Yes, they are appropriate</b></p>	
<p><b>Minor</b> REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes, it is suitable.</p>	
<p><b>Optional/General</b> comments</p>	<p>Consider revising the abstract portion to highlight the case information mentioned earlier</p>	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
