Type of the Article	Review Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	As climate change intensifies, review articles like this one can provide a valuable reality check on the ongoing processes impacting our planet. This article focuses on greenhouse gas emissions from agriculture, and I believe a comparison with other major sectors like industry, automobile could be included in one section.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title can be short and precise.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is fine, requires a little bit of language refinement required.	
Are subsections and structure of the manuscript appropriate?	Sections 4 and 5 are interconnected and contain a lot of the same information, so they can be merged together, providing only the relevant information.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The overall manuscript is fine, though there are some grammatical errors in the conclusion. The conclusion should highlight the major agricultural activities impacting the climate and suggest potential solutions with supported data.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient but recent references from 2022, 2023 and 2024 are missing and can be updated. Include more references in Section 6 as it have only one reference.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes, a little refinement is required.	
Optional/General comments	Try to add one section in which a comparison can be done between greenhouse emissions from all the major sectors contributing to it.
