

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_126166
Title of the Manuscript:	Medicinal Herbs and their Contribution to Maintaining Begomovirus in Burkina Faso
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Medicinal herbs play an indispensable role in treatment of various diseases including viral diseases, not only in Burkina Faso but also in other parts of the world. This article showcases the role of various medicinal plants as hosts for begomovirus family of viruses. The authors found specific symptoms of this viral infection in such plants. After multiple surveys, it was concluded that many medicinal plants found in this region are directly involved in maintaining populations of begomoviruses.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The article successfully established its aim to elaborate on better understanding of epidemiology of begomoviruses through its findings. The authors stated that about 25 various medicinal plant species were found to be a part of the host range of begomoviruses in Burkina Faso. Thus it can be stated that the article significantly contributed towards epidemiological surveillance work regarding viral diversity in this region.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	

Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
