

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_126479
Title of the Manuscript:	Role of Yoghurt Cultures and Incubation Time in Enhancing Sensory Qualities and Water Holding Capacity of Greek Yoghurt Spread
Type of the Article	Short Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This is a concise study of the different factors that affect the quality of Greek yogurt. Well-written and easy to follow manuscript. The experiments seem to be logical and scientifically valid. This is an important study as this will help in the optimisation of its manufacturing.	
Is the title of the article suitable? (If not please suggest an alternative title)	'Role of Yoghurt Cultures and Incubation Time in Enhancing Sensory Qualities and Water Holding Capacity of Greek Yoghurt Spread.' This article gave an impression was only about yoghurt not yoghurt spread.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is a comprehensive and well written abstract.	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The experiments selected fits the purpose of the study. i.e. to study the different conditions that affects the quality of the yogurt. Appropriate parameters have been included like incubation time, culture concentration, temperature etc. Also, the number of conditions studied under each parameter is satisfactory. Effort has been taken to identify the explanation of the observations. These make this manuscript scientifically sound.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	yes	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Choose one style: American or UK English Relating your observations with the literature is very good. However, more effort should be given in explaining your observations and not theirs.	
Optional/General comments	Good manuscript
