PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The problem of an excessive use of digital devices is very current and serious among the whole society. Recently the technology dominate and this is dangerous for our eye health. There aren't so many studies that examine the macular damage from digital devices. The research is up-to-date.	
Is the title of the article suitable? (If not please suggest an alternative title)	Exactly	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The summary is too short and the keywords are too many.	
Are subsections and structure of the manuscript appropriate?	There is a lack of clarity about the purpose, the results and the discussion in that presentation. These sections aren't clearly distinguished. Some tables and charts are needed.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The topic is current, the methods of statistics are appropriate. This is the first ophthalmic team that investigates the mfERG foveal changes elicited by the exposure to blue light emitting-screens. It would be good if the questionnaire used was also attached.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		
	As a recommendation - the study should be expanded to different age groups - not only students.
