

**Review Form 3**

Journal Name:	<a href="#">South Asian Journal of Research in Microbiology</a>
Manuscript Number:	Ms_SAJRM_124415
Title of the Manuscript:	ANTIBIOGRAM OF BACTERIA ISOLATED IN RAW MILK SOLD IN MAKURDI METROPOLIS, BENUE STATE, NIGERIA.
Type of the Article	Research article

## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	<ul style="list-style-type: none"> <li>▪ It highlights the prevalence of antibiotic-resistant bacteria in raw milk</li> <li>▪ It informs the consumers about the risks associated with consuming raw milk</li> </ul>	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Yes, just instead of 'IN' have to use 'FROM'	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>In abstract-</b> 1. <b>It should be started with the background and objective of the study.</b> 2. This point should be added- All the isolates were resistant to Penicillin and Cephoxitin (58.33-100)%.	
<b>Are subsections and structure of the manuscript appropriate?</b>	Yes	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	Though the Introduction, Materials and methods, Result and Discussion part is scientifically robust. But lack of coordination in result and discussion section with the subsection of materials and method. For example, (i) <b>Determination of Total Microbial Counts in Milk</b> (ii) <b>Isolation and identification of bacterial isolates</b> (By cultural and morphological characteristics) <b>are the subsection of materials and methods but no findings were reported in Result and Discussion section.</b>	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	No comments	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Moderate	
<b>Optional/General</b> comments	Inclusion of the images of cultural and morphological characteristics of respective isolates would be effective for validation of the techniques.	

### PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
