#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1-reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1-reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript focuses on the potential of <i>Garcinia gummi-gutta</i> Fruit. The authors highlighted the chemical diversity, pharmacological properties, the safety and clinical efficacy of that plant fruit used traditionally as food supplements. The authors emphasize that fruit's antioxidant, anti-inflammatory, and antimicrobial properties are well-documented, more rigorous clinical trials are necessary to establish the long-term benefits and safety of <i>Garcinia gummi-gutta</i> . The authors suggested that researchers should continue to explore standardized formulations and dosing regimens to better understand the full spectrum of its therapeutic potential	
Is the title of the article suitable? (If not please suggest an alternative title)	Not specific: "A Comprehensive Review on the Phytochemistry, Pharmacological Properties, and Clinical Efficacy of <i>Garcinia gummi-gutta</i> Fruit"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, but specify that the report is focused on the fruit.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	I think this paper is important because there is a lack of information to date on the that plant fruit potential as nutritional supplements. So, a review of the nutritional potential showing the interest and limit study regarding that fruit as supplements, and the needs to explore more the safety of that plant fruit in clinical study. Unfortunately, I didn't see any methodology for data search.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments	Yes	
Is the language/English quality of the article suitable for scholarly communications?		
<u>Optional/General</u> comments	The various comments and corrections in the manuscript must be taken into account.	

Commented [A1]: As possible add author name. Specify with "fruit"

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
