<b>Minor</b> REVISION comments	The language quality of the article is suitable for scholarly communications	
Is the language/English quality of the article suitable for scholarly communications?		
<b>Optional/General</b> comments	<p>The manuscript requires a major revision.</p> <p>The authors need to provide background information of the study area in terms of agro-ecological zones with map, how they arrive at 400 sample size by using a sample size determination formula and why SURE model was selected for the study ahead of other econometric models.</p> <p>The coefficients of household income have high values, the authors need to check it, if possible, the authors should use log of household income. Some of the explanations in the discussion section lacks citation. There are many works done in cocoa from Ghana, Ivory Coast and Indonesia that the authors can use to enhance their explanations.</p> <p>Diagnostic tests such as normality, multicollinearity, and heteroscedasticity are missing in the manuscript. The authors should provide those results.</p>
