

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_126705
Title of the Manuscript:	Determination of twelve sorghum (<i>Sorghum bicolor</i> L. Moench) varieties status to midge damage in hotspot areas of Burkina Faso
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript talks about evaluating sorghum varieties for traits like midge tolerance and high production in midge hotspot area in Burkina Faso that can be adopted. It addresses the food security and sustainable development of rural communities of that region. The findings can help in promotion of tolerant varieties that increases crop productivity and resilience to climate change and pest pressures. This manuscript has the potential to make a significant impact on food security, agricultural development, and scientific understanding in Burkina Faso,	
Is the title of the article suitable? (If not please suggest an alternative title)	The title can be improvised as the work was carried out in only one hot spot region and the emphasised-on status of varieties to midge damage. The alternative title can be – Determination of Twelve Sorghum (<i>Sorghum bicolor</i> L. Moench) Varietal Status to Midge Damage in Hotspot Area of Burkino Faso.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is comprehensive. Few suggestions that could be corrected for clarity of expression are incorporated in the document. And future scope of the work should be included.	
Are subsections and structure of the manuscript appropriate?	Yes, the structure of manuscript is clear	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript has all the information related to the agronomic practices to methods of data collection and clear discussion that addressed the findings of the research.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent. However, the referencing style is not similar among them. Journal format of referencing should be used.	
Minor REVISION comments	Language revision is necessary	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
