PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>This article explains about importance of implementing cybersecurity with AI, especially in school. Eventhough details in articles are related to implmenting AI, but I don't see any details on article what kind of data security algorithm will be used to handle security breach. More details should be provided.</p> <p>I see K-mean algorithm used to identify the co-relation of different factors that influence use of AI. But along with budget, resource training etc, methodology to implement security should be described on the paper</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Yes</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Abstract is good, but it would be great more details about AI algorithm to face security breach should be added</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Yes, but proper numbering should be added on subsections</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>This manuscript is yet to be polished with design details to counteract cybersecurity issues.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>References are sufficient but it should be properly numbered and properly referenced inside the document. Not everything is cross-referenced in the manuscript</p>
