

Review Form 3

| | |
|--------------------------|--|
| Journal Name: | Asian Journal of Research and Reports in Urology |
| Manuscript Number: | Ms_AJRRU_126927 |
| Title of the Manuscript: | Evaluating the Biochemical Impact of D'General Bitters on Renal Function in Adult Male Wistar Rats |
| Type of the Article | |

PART 1: Review Comments

| Compulsory REVISION comments | Reviewer's comment | Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|---------------------------|--|
| Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part. | | |
| Is the title of the article suitable? (If not please suggest an alternative title) | | |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here. | | |
| Are subsections and structure of the manuscript appropriate? | | |
| Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part. | | |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. = | | |

Review Form 3

| | | |
|--|--|--|
| Minor REVISION comments | | |
| Is the language/English quality of the article suitable for scholarly communications? | | |
| Optional/General comments | <p>This study evaluates the biochemical impact of D'General Bitters on renal function in Wistar rats, focusing on markers like creatinine, urea, and uric acid to understand potential benefits and nephrotoxic risks. Wistar rats serve as a model for human-like metabolism, helping to reveal the safety and efficacy of this herbal formulation.. The article is well organized and accepted. In addition to that, the author needs confirmation about the query which is mentioned below.</p> <p>1. The author has to discuss the potential benefits and risks associated with the use of D'General Bitters on renal function in Wistar rats, and why are markers like creatinine, urea, and uric acid significant in evaluating these effects?</p> | |

PART 2:

| | | |
|---|--|--|
| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
