

Review Form 3

Journal Name:	Asian Journal of Research and Reports in Urology
Manuscript Number:	Ms_AJRRU_126927
Title of the Manuscript:	Evaluating the Biochemical Impact of D'General Bitters on Renal Function in Adult Male Wistar Rats
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is important to the scientific community owing to the over consumption different bitters by some Nigerians.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of article is misleading "Effect of D'General Bitters Administration on Renal Function in Adult Male Wistar Rats" "	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is grossly inadequate lacking scientific understanding. The entire abstract should be re-written in entirety	
Are subsections and structure of the manuscript appropriate?	The subsections require restructuring	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is illogical, not sound with many grammatical errors. It will benefit form language formatting.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Ok.	

Review Form 3

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The introduction is grossly inadequate. Th authors are requested to do a thorough literature search on the bitter, the constituents used to manufacture the bitters.	
Optional/General comments	I recommend a major revision and this research according to the authors was supported by the TETFUND. If this type of work is a TETFUND sponsored, I can't certify the integrity of the results presented as the results are too preliminary, looked like an undergraduate research. There are many indicators that would have brought out the beauty of this work including histopatholigial study of the kidney tissue, kidney antioxidants and other kidney finctions parameters.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
