Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Yes, the analysis of climate change is a complex process that requires combining scientific and economic models in a consistent way; generating climate scenarios by the end of the century with the possible consequences on the country's productive and service sectors. The results allow us to conclude that climate change has significant impacts on the Mexican economy and that the costs of inaction are higher. Thus, it is more efficient to future generations, beyond the ethical considerations.
