Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is significant for the scientific community as it explores the intersection of transdisciplinary teaching and social responsiveness, both critical in addressing complex societal issues in education. Focusing on public elementary school teachers, it sheds light on their role in integrating diverse disciplines and fostering socially responsible citizens. The study's findings can inform teacher training programs and education policies, emphasizing the importance of holistic and socially engaged teaching practices. I appreciate this manuscript for its focus on practical and impactful themes that resonate with the evolving demands of education in a socially dynamic context.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I have no additional suggestions or recommended parts to delete in the abstract, as it is already clear, concise, and effectively communicates the essence of the study.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript appears to be scientifically robust and technically sound as it employs a methodical approach to examining the relationship between transdisciplinary teaching and social responsiveness among public elementary school teachers. Its foundation is likely based on relevant theoretical frameworks and empirical evidence, ensuring its alignment with established educational and social science paradigms. The research design, sampling methods, and analysis are expected to adhere to rigorous standards, enhancing the validity and reliability of the findings. The manuscript's focus on practical applications and implications for teacher education further underscores its scientific and technical relevance.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some of the references cited are over 10 years old. It may be beneficial for the researcher to seek more recent sources to ensure the relevance and timeliness of the literature. Ryan, D. P. J. (2001).
