Manuscript Number:	Ms_JEAI_126505
Title of the Manuscript:	Effect of integrated weed management practices on growth and yield of rabi sorghum ( <i>Sorghum bicolor</i> . L)
Type of the Article	Original Research Article

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Like, Research on the impact of IWM on <i>Rabi</i> sorghum development and yield is highly relevant and important because it fills a major demand for long-term weed control tactics that boost agricultural yields. This study sheds light on effective, environmentally friendly strategies that can enhance sorghum output while limiting herbicide dependency by analyzing a mix of chemical, mechanical, and cultural weed management methods. This research is extremely significant to agronomists, farmers, and policymakers since it not only advances improved resource management but also advances the larger objective of sustainable agriculture.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust due to its clear experimental design, comprehensive approach to integrated weed management, and rigorous statistical analysis, ensuring reliable, actionable results. Its focus on yield and sustainability directly addresses key agricultural challenges, making the findings both relevant and impactful.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	Yes
