#### **PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study is valuable to the current literature. However, it contains 1. many grammatical errors, 2. inappropriate use of a research design, and 3. poor discussion of the issues based on the model. The researcher must be consistent throughout the paper, using the exact spelling from the title to the conclusion. Another significant issue is identifying something in the abstract (three hypotheses) when the research dealt with only one hypothesis.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	A significant issue is identifying something in the abstract (three hypotheses) when the research dealt with only one hypothesis.	
Are subsections and structure of the manuscript appropriate?	Good	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Overall, the paper followed the scientific process from beginning to end. However, the authors employed the wrong research design, which thwarted the scientific quality of the work.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Good reference
