| <p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p> | | |
| <p>Optional/General comments</p> | <p>For the introduction section</p> <ul style="list-style-type: none"> We suggest enhancing the abstract section by adding relevant references to existing studies or works. This will help better contextualize your contributions and strengthen the scientific impact of your manuscript To include relevant references from the Journal of Engineering Research and Reports in your work, you can identify recent articles or those related to your field of research. <p>For the materials and methods section</p> <ul style="list-style-type: none"> It is essential to present the materials used and the methods implemented in your study in a precise and detailed manner in order to properly structure and clarify the "MATERIALS AND METHODS" section. It is preferable not to place parentheses at the end of a sentence. <p>For the model creation section</p> <ul style="list-style-type: none"> Improve the quality of the figures and avoid using gray lines for traces Determine the section of the steel bars mentioned in Figures 3, 4, 5, and 6. Add a title to the table mentioned in the section "3.2.2 Creation of corner reinforcement for hole guards." <p>For the conclusion section</p> <p>I recommend making these revisions before considering the publication of the manuscript. These improvements will significantly enhance the quality and rigor of the study.</p> | |
