

## Review Form 1.7

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_111669
Title of the Manuscript:	The Role of Robotics in Mental Health Interventions: Opportunities and Challenges
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>With the greater inventions, robotics plays a crucial role in enhancing future of our world. This manuscript deals with the importance of robotics in medical field which will be helpful to the scientists to raise awareness in community.</p> <p>Title of the manuscript doesn't match with the subject of the manuscript. As the paper describes benefits and constraints of robotics in surgery, either change the title related to surgery or add role of robotics in management of mental health disorders.</p> <p>Abstract could be more comprehensive. It should at least consist of 300 words.</p> <p>Relation between robotics and mental health disorders should be elaborated in the paper.</p> <p>Yes, the manuscript is scientifically correct.</p> <p>References included in this manuscript are not enough according to my knowledge. At least 8-9 references from the last 5 years must be included.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes, quality of language is suitable for scholarly communications.	
<p><b>Optional/General</b> comments</p>	The manuscript is scientifically correct and includes valid points. But according to title the paper must provides insights into the transformative potential of robotics in revolutionizing mental health care delivery but instead they've elaborated the role of robotics in general surgery. The author needs to explain the role of robotics in dealing mental health.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
