Type of the Article	Case report

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Drowning is a public health concerned scenario . It should be addressed. More case reports with proper written management is appreciable. However, this article lacks in many starting from showing global scenario to country,s own data, and proper investigation and management writings. I would suggest to correct those before publications.	
Is the title of the article suitable? (If not please suggest an alternative title)	I would suggest word Difficulties rather to use Burden. As this article fails to provide the burden scenario with main manuscript. Rather shows many steps of difficulties in management.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<ol style="list-style-type: none"> 1. There is written fresh water river in abstract while salt water river in Introduction. Which one would be correct? 2. Grammatical mistakes in introduction part. 	
Are subsections and structure of the manuscript appropriate?	1. Abstract structure might be rewrite to one paragraph or according to journal's structure.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Please provide/ correct the following informations: <ol style="list-style-type: none"> 1. Simply write blood group instead of genotype AA for easy understanding. 2. No need to write bibasal..write simply basal in both lung field Role of diclofenac? 3. Please mention GCS level on rescue. 4. Please write respond to treatment within how many hours or days? 5. What measure taken for worsened condition ,fever on day 5? 6. Role of Artesunate? 7. Where is ABG report? 8. Please provide some worwide data. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	1. Can,t access WHO Page [Ref-4]	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	This need to revised as there are many grammatical mistakes. And after providing all other information as suggested in upper section, it might consider suitable for scholarly communication.	
<u>Optional/General</u> comments	This article lacks in many starting from showing global scenario to country,s own data, and proper investigation and management writings. I would suggest to correct those before publications.
