Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> Qualitative methodology: Focuses on an in-depth understanding of participants' attitudes and experiences. Case study design: Provides a detailed examination of streaming practices in a specific context. Thematic analysis: Used to identify patterns and themes from the collected data. Research questions: Aimed at understanding perceptions and proposing strategies for improving streaming practices. <p>This type of article is typically categorized under educational research focusing on qualitative methods.</p>	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article comprehensive	
Are subsections and structure of the manuscript appropriate?	Subsections and structure of the manuscript appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust and technically sound as the use of thematic analysis for interpreting data follows a widely accepted qualitative methodology, increasing the rigor in identifying key themes and patterns. The inclusion of both teachers and students, combined with the use of stratified sampling for students, ensures a diversity of perspectives. Only mention limitation and delimitation of study	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	The references are sufficient and recently included 2024yr also	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language/English quality of the article is satisfactory.	
Optional/General comments	The study appears scientifically sound in terms of its qualitative methodology but could improve its robustness with quantitative data, a larger and more diverse sample, and long-term evaluations to validate its findings across different contexts.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
