

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Fisheries and Aquatic Research</a>
Manuscript Number:	Ms_AJFAR_126194
Title of the Manuscript:	Determination Of Better Acclimatization Process For Channa Punctatus , A Fresh Water Air Breathing Teleost In Laboratory Condition
Type of the Article	

#### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The article is of great importance, because many researchers struggle to acclimatize the fishes before the experiments. Providing natural environments for acclimatizing fishes sounds interesting and may be novel. However the present article is only limited to <i>Channa</i> which makes it less applicable.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is too long. Alternative Title can be: "Better Acclimatization Process for <i>Channa Punctatus</i> , A Fresh Water air breathing Teleost"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is fine.	
Are subsections and structure of the manuscript appropriate?	Yes, they are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Analysis could have been more elaborate. There should be analysis of physico-chemical properties(pH, TDS, EC, oxygen content etc.) of water samples from tanks at regular intervals. Secondly, the graphs & the pie chart represents the same data. Physical conditions of the animal house (temperature, humidity, light etc.) should be included in the study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The most recent literature is of 2019 and maximum literature are from 1980's. There is definitely a scope of addition of recent literatures.	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	Nil	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**
