Title of the Manuscript:	Soil carbon sequestration in land use types of an oil palm based cropping system
Type of the Article	Research Paper

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Global warming is of significant importance in today's life as it is directly have bad impact on climate change. In order to control over advert climate change we can minimize GHGs emission. So can be done by different agricultural management practices that can sequester more carbon. These practices has been discussed in this manuscript so I like it.	
Is the title of the article suitable? (If not please suggest an alternative title)	Not suitable Soil carbon sequestration in different land use types	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is appropriate	
Are subsections and structure of the manuscript appropriate?	Its okay	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This study is scientifically correct as soil properties and carbon sequestration measured was done by following standard methodology. A proper statistical design was taken during study and Statistical analysis is also correct. Statistix version 16 software was also accepted internationally.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Few references are not recent and some are mentioned in comments
