

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_120673
Title of the Manuscript:	Challenges, Approaches & Applications of Orotransmucosal Drug Delivery System
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	Administering drugs via transmucosal routes provides the benefit of being relatively painless and offers greater flexibility in various clinical situations. <ul style="list-style-type: none"> • Painless Delivery, • Rapid Absorption, • Bypassing the First-Pass Effect, • Convenience and Compliance, • Alternative for Specific Patient Groups, • Localized Treatment. 	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Add Some points here, i.e., importance and current challenges and objectives of OTDDS.	
Are subsections and structure of the manuscript appropriate?	YES	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	They mentioned scientific proof and a more extensive literature review in the updated version. This approach is highly relevant and better suited to the title, with explanations provided step-by-step. Researchers are exploring new formulations and techniques to address these challenges, aiming to overcome permeability barriers, protect drugs from enzymatic conditions, and reliably deliver therapeutic doses to their targets.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	YES	
<u>Minor</u> REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	VERY SUITABLE	
<u>Optional/General</u> comments	Add some important applications of OTDDS.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
