Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript appears to be valuable for the scientific community as it helps to find the role of off-farm as a livelihood strategy on food security in Kilifi South Sub-county.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes. is suitable as it accurately reflects the focus and scope of the study. It provides a clear indication of the subject matter.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract provides a concise overview of the study, summarizing the key objectives, methods, and findings. However, it could benefit from including more specific results and implications to enhance its comprehensiveness.	
Are subsections and structure of the manuscript appropriate?	The subsections and structure of the manuscript seem appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript appears scientifically correct, presenting data and findings in a coherent manner.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References should be written in journal format.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language and English quality of the article are generally suitable for scholarly communications. However, here are some minor revision comments to enhance clarity and readability.	
Optional/General comments	Objective of the study need to be quoted in the main manuscript. Please use the same font size through out the manuscript. References:- References should be written in journal format. Moreover, quoting references in the main manuscript need to be revised e.g. Instead of writing "According to [21], identifying an appropriate food security measure", please write as "According to Legendre (2005) [21], identifying an appropriate food security measure". Please rephrase all the references like this in the main manuscript.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
