Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The topic is good, considering the rarity of the cases and type of high grade tumors. Early diagnosis and management is very much needed in treatment of such patients. Adding this our medical literature would definitely present a good diagnostic approach of such rare presentation.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, but can be improved a bit- "Desmoplastic Small Round Cell Tumor: A Potpourri of Cases Highlighting Diagnostic and Therapeutic challenges."	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, abstract is fine. Some rarity about incidence and their management can be added.	
Are subsections and structure of the manuscript appropriate?	Case report: Picture 1 can arranged properly with a & b clubbed together Discussion: Needs improvement 1. Review of literature should be done more meticulously 2. Studies should be quoted in discussion. 3. Rare cases on Desmoplastic small round tumor by other authors should be mentioned. 4. Considering the rarity of cases, a tabular form of rare cases from literature should be mentioned. 5. Diagnostic approach of small round cell tumor with histology and immunohistochemistry should be mentioned as to how to differentiate it from other round cell tumors	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Technically, this manuscript is fine, adding to rare cases in medical literature. Presenting such 3 aggressive clinical cases when published will create enthusiasm among young clinicians & researcher to be vigilant in future to diagnose and treat such cases in future.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Few more recent references within last 5 years can be added.	
Minor REVISION comments	Yes	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	Overall manuscript can be accepted after few major changes as mentioned above.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
