Review Form 3

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Language does not sound weak for scholarly communication, however, needs minute proofreading with rephrasing.	
Optional/General comments	Need to include a brief theoretical underpinning in literature review. -Sampling and instruments should be written clearly. How were the respondents selected? - Discussion is made less relevant with other similar studies. Try to discuss your study findings with more key studies.
