PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	An important aspect of present day scenario of drug resistance and patient distress. Relevant topic	
Is the title of the article suitable? (If not please suggest an alternative title)	Please remove cross sectional study as it is only a review article not a study.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	adequate	
Are subsections and structure of the manuscript appropriate?	OK	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The reference quoting was problematic. The references are numbered and not in alphabetical order. But the references quoting has been done in a different manner, no numbers have been put.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References as given in the scope of the study 2014 to 2024. But I don't think all these studies are from Nigeria as stated. As there is only a short paragraph on studies done in Nigeria with few references only.	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	OK in most of the cases, but one particular stretch very bad with lots of typo errors. Still the article needs English language checking	
<u>Optional/General</u> comments	The full name of the organism should be written when first stated. Then abbreviation of the genera name may be done. Name of bacteria should in italics.
