

**Review Form 3**

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_127602
Title of the Manuscript:	Performance of Tecomella undulata (Desert teak) stump planting over seedling for growth and straightness under arid condition.
Type of the Article	Original Research Article

### Review Form 3

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>		
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>		
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>		
<b>Are subsections and structure of the manuscript appropriate?</b>		
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>		
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> =		

### Review Form 3

Minor REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>		
<b>Optional/General</b> comments	<ol style="list-style-type: none"><li>1. Considering the importance of the species which is endangered, the objectives of the research is very apt and results will be useful for multiplication of the plants in a large scale and for mass propagation</li><li>2. In introduction part the it is better to mention about the part of the plant which is being used as medicinal purpose and the different medicinal uses with authentic reviews and reference</li><li>3. It has been mentioned that, natural regeneration of plants from seeds is poor... For this proper scientific evidence needs to be quoted</li><li>4. What was the duration of the experiment to judge the field establishment of stumps and seedlings needs to be clarified</li><li>5. How the plants raised from stumps are better than seedlings? Clarification in terms of precocity, vigour, canopy pattern, establishment needs to be highlighted</li></ol>	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
