Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	A review of phytochemistry should cover techniques for extracting and measuring certain phytochemicals, such as gas chromatography (GC) and high-performance liquid chromatography (HPLC). using methods like as nuclear magnetic resonance (NMR) or mass spectrometry (MS) to identify active chemicals. as well as means of action (such as antioxidant activity, receptor interaction, and enzyme inhibition).Along with this toxicology should include.	
Is the title of the article suitable? (If not please suggest an alternative title)	An overview of the pharmacological and phytochemical characteristics of the Ficus Thonningii (Blume) plant.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No,should include A brief description of the plant's history , origin and the need for additional clinical studies as well as the plant's safety.Aim should be modified.	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No,,should include recent references.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Aim of article should be modified. Should include references that cover all aspects.following reference should include References 1.Fongang Fotsing, Yannick Stephane & Kezetas Bankeu, Jean Jules & Ali, Muhammad & Awantu, Angelbert & Ahmed, Zeeshan & Assob, Jules & Lateef, Mehr & Lenta, Bruno & Silvere, Ngouela & Tsamo, Etienne. (2014). Flavonoids and other bioactive constituents from Ficus thonningii Blume (Moraceae). Phytochemistry Letters. 11. 10.1016/j.phytol.2014.11.012. 2. Phytochemical and Pharmacognostic Analysis of Ficus thonningii Blume Leaves for Monograph Development *Egharevba, Henry Omoregie1 ; Carew, Oka2 and Kunle, Oluyemisi Folashade1 1 Department of Medicinal Plant Research and Traditional Medicine, National Institute for Pharmaceutical Research and Development (NIPRD), Abuja, Nigeria. 2 Department of Pharmacognosy, University of Jos, Jos, Plateau State, Nigeria	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
