Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is important as it highlights orexin receptor antagonists as promising therapeutic agents for insomnia. By exploring orexin receptor antagonists, the manuscript contributes to advancing understanding of sleep regulation and introduces a potential paradigm shift from traditional sedative-hypnotic medications. I appreciate the manuscript for its focus on innovative therapeutic mechanisms, which could lead to improved patient outcomes with fewer side effects. However, the depth of discussion on long-term efficacy and safety could be expanded for a more comprehensive evaluation.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract of the article is fine.	
Are subsections and structure of the manuscript appropriate?	Yes, Subsections and structure of the manuscript are appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript appears scientifically robust and technically sound, as it provides a well-researched and evidence-based overview of orexin receptor antagonists for insomnia treatment. The authors present relevant preclinical and clinical data, supporting the therapeutic potential of these agents.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references provided in the manuscript are relevant but not entirely sufficient, as some essential studies appear to be missing. I have highlighted these missing references in the attached PDF for your consideration. Including these additional references would strengthen the manuscript by providing a more comprehensive and up-to-date context.	
Minor REVISION comments	Yes, it is suitable.	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	I have put some comments in Manuscripts, these comments needs to be addressed and changes will be made accordingly.
