

Review Form 3

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_127443
Title of the Manuscript:	Correlation of Coral Reef Cover with Catch Results in Supiori Waters Papua, Indonesia
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> - This paper relates to biodiversity, which is one of the focuses of researchers' attention. - This study provides important information on the correlation of coral cover with fish catch conditions - The research location is unique and included in the Coral Triangle region - There are not many articles that have conducted research on the correlation of coral cover with catches 	
Is the title of the article suitable? (If not please suggest an alternative title)	Correlation of Coral Reef Cover with Catch Results of Target Fish Species in Supiori Waters Papua, Indonesia	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Add the percentage value of coral cover from each station sampling location	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and script structure are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<p>This manuscript is scientifically sound and technically sound:</p> <ul style="list-style-type: none"> - this manuscript has used the correct research method and according to scientific references - this manuscript has used statistical analysis (linear regression) - low percentage of coral cover linear with low fish catch is a scientific result and can be accepted logically. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	This manuscript still needs to be supplemented by using the last 10 years of references	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	There is an inappropriate use of word types such as types that should be species	
Optional/General comments	This manuscript is good
